Nabla research_paper

Sintetico: True

1. Hypothesis

Bounded examples. NIST data are published observations; other examples are synthetic.

2. Method

Bounded examples. NIST data are published observations; other examples are synthetic.

3. Results

Bounded examples. NIST data are published observations; other examples are synthetic.

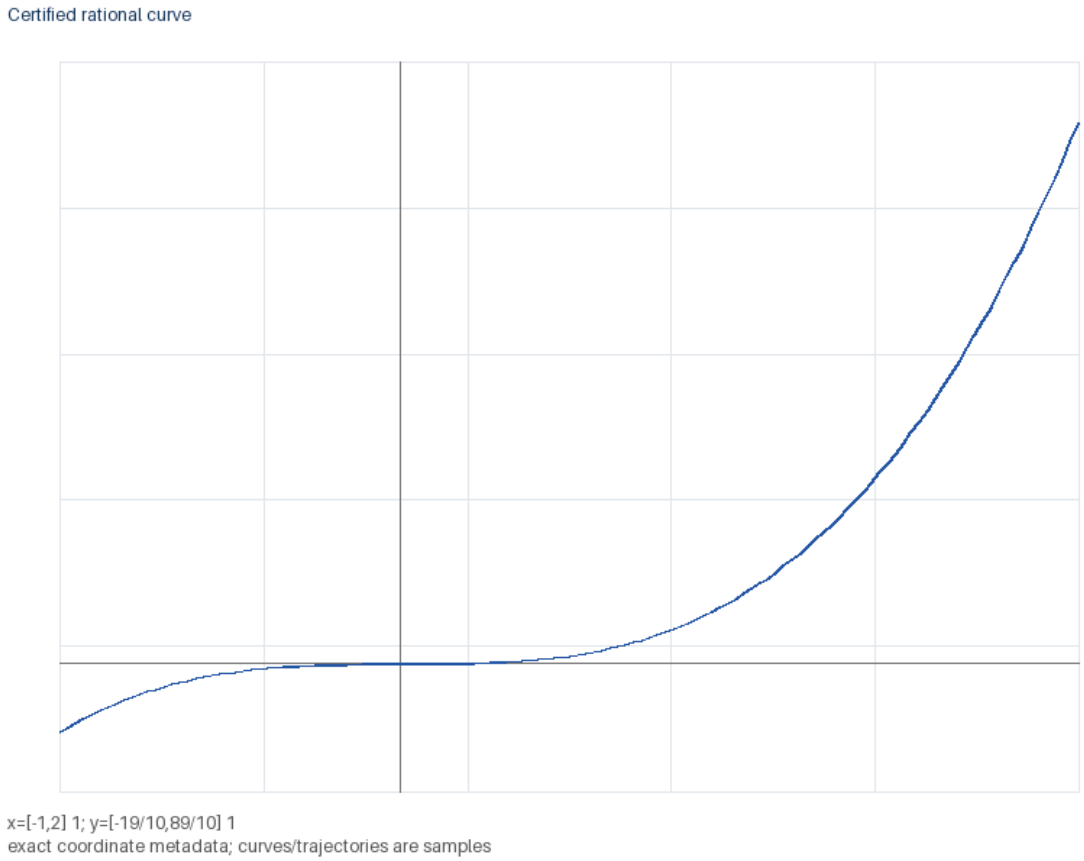

Figure 1: Model-linked rational curve, vertical interpolation tolerance 1/1000; source scene is replayable.

Check	Outcome
Published NIST numerical reference	passed
Durable agent resume	passed
Rational basis holdout	matched
Signed delta exchange	passed

Table 1: Reproduced computational evidence

6. Limitações

Computational checks only; no global novelty, physical validation or independent peer review.
